***Ex parte Quayle***

1. This application is in condition for allowance except for the following formal matters:

Claims 7-10 and 14 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

***Conclusion***

2. The Prior Art of record shows several examples of circuits including upper and lower drive circuits wherein power for the upper drive circuit is derived in a bootstrap fashion from the lower drive circuit's power source. The Prior Art of record does not appear to show "bipolar" drive circuits where the negative potential for the upper circuit is derived from the lower power source as defined in the claims.
